Congratulations to Dangelmayr Bros.
Our longtime customers and exhibitor of the
RESERVE GRAND CHAMPION PEN of HEREFORD HEIFERS

At the 2014 Premium Whiteface Replacement Female Sale in Ft. Worth, Texas.
All the heifers were sired by Desert Mart bulls.

We love our customers! Their success is the catalyst for our unrelenting pursuit of putting out a consistent quality product!

Consistency on display.
Against every county and every breed, Desert Mart heifers won the state group of five again in 2014.

TERMS AND TRANSPORTATION

Each animal will be sold to the highest bidder and the auctioneer will settle any disputes as to bids. Terms are cash at the time of purchase or one-half down and the remaining balance due at the time of delivery. If you so desire, we will care for your purchase for up to 30 days at our risk and our expense. It is our desire to make all deliveries prior to December 20, 2014. Free delivery on the bulls anywhere within the continental United States, on total bull purchases of $5,000. The females will be delivered by Largent and Sons or their agents at cost.

If you bring your own trailer and health certificates can be written sale day, there will be a $125 rebate per bull and $60 per female on each animal you haul home. Note: Due to changing health requirements on bulls, please check your state's health requirements; if there are any questions, contact us so that we may assist you with delivery.

The cost breakdown of female delivery done by Largent and Sons will be determined according to the zone you live in. Zone 1: less than 200 miles – $125 per head; Zone 2: 200 to 400 miles – $150 per head; Zone 3: 400 to 600 miles – $200 per head; Zone 4: 600 to 800 miles – $300 per head; Zone 5: over 800 miles – $350 per head. Delivery costs may be paid for at your option either at the time of settlement or at delivery. We will do our very best to work with all customers regarding delivery concerns.

GUARANTEE AND LIABILITY

Customer satisfaction is our primary concern. Every effort has been made to ensure complete genetic prepotency and purity. All sale cattle are guaranteed free of known genetic recessives. All coming twos and fall yearlings have been fertility tested and scrotal measured by our veterinarian. Every bull selling carries our guarantee: If a bull fails in any way to meet your expectations for two full years from time of purchase, (1) send him to the auction barn and notify us of the salvage check; (2) then at your option we will either replace the bull; or (3) you will receive the difference between the purchase price and the salvage check as credit in our next bull sale. All cattle that have horns will be so designated. The same goes for cattle that are polled. Scurred cattle will also be identified. Bulls with scurs do not have real horns and should not sire cattle with horns any more than a smooth polled bull would. All persons attending the sale do so at their own risk. The owners assume no liability, legal or otherwise, for any accidents or further guarantees.

WINTERING ARRANGEMENTS

At the buyer’s option, all older bulls will be wintered at a cost of $90/head/month. Since each individual carries the 2-year guarantee, seller assumes full risk. The bull calves will be wintered at $60/head/month.

HEALTH

All sale cattle will be health approved to go to any state, however, certain states may require additional health tests which may not be able to be written sale day.

ACCOMMODATIONS

Excellent accommodations are available in Buffalo, Casper and Kaycee. For assistance with motels or additional travel, please call 307-738-2443.

LiveAuctions.TV

See, hear and buy live during the auction from your home computer. For more information contact, Brad Fahrmeier at 816-392-9241.

Real-time bidding is available via the internet for this sale. Live audio and video will allow buyers to bid on animals just as if they were present at the sale. Please visit www.liveauctions.tv to create an account and request a buyer number. BUYERS MUST REGISTER 2 DAYS PRIOR TO THE SALE. Instructions to walk you through the account set up process are on the website.

Dear Cattle Producers,

Welcome to opportunity day! This is our 33rd Annual Production Sale, the “MORE IS MORE” sale. We are calling this Desert Mart sale the MORE IS MORE sale to encourage producers to really embrace the proven advantages of Hereford bulls, especially on cows of a different breed. There are some unproven claims that heterosis is not a valid profit direction for today. To refute this misleading approach let’s look at the following documented facts:

- Current calf prices guarantee that the crossbreeding pound gain of 35-55 lb. per calf equals about $120 MORE for every calf sold!
- The “factory” represented by females such as the black baldie will breed up better and last MORE years!
- Hereford bull advantages in less bulls needed, additional years working and easier to handle dispositions all total MORE dollars saved!

Now examine all the additional advantages gained through the Desert Mart extra approach:

- EXTRA dependability. What keeps cattle folks prosperous through the years is that elusive ability for cows to STAY! A hardworking, trouble free cow herd insures less input costs and MORE return.
- EXTRA premiums. Even with record prices, there is still not a better way to a profitable business than satisfied customers! They keep coming back and place demand pull on cattle that really perform on less feed and hang those premier carcasses that command MORE dollars.
- EXTRA keeping ability. Many try to feed on this trait instead of breeding it on. We have culled hard against “free loaders” for 112 years! Bulls and females that hold a good level of condition in any environment are where MORE value starts!
- EXTRA service. Your purchase from Desert Mart is just the BEGINNING of our commitment! We follow up with an exclusive 2-year guarantee. We believe your hard-earned bull dollars are a long-term investment that should stay around for at least two full years. We also continue to place extreme selection pressure on producing quality options whether you need horned or polled, heifer bulls, combination bulls, or more pigment.

Our efforts to provide the very best in Hereford genetics includes data to help you make the most informed decisions possible. You will note that above breed average in multiple traits, King Ten traces and udder pigment possibility (UPP) scores are provided. Raising cattle that possess this combination of data and quality has taken our outfit several generations to produce. 2014 is a great time for you to gather these efforts and plug them into your outfit!

In Christ’s love,
The Desert Mart Crew

L3 Lady Gear 328
2014 Wyoming State Fair Junior Hereford Champion
All the sale cattle have been raised on native range with no creep feed. After weaning, all bulls are developed on a growth ration and long hay with plenty of exercise and exposure to all of Mother Nature's elements.

PERFORMANCE RECORDS
Our herd has been enrolled in the American Hereford Association's TPR Performance Program for over 50 years. We are putting out individual performance information except actual birth weights in the catalog expressed strictly as EPDs. While all the registered cattle have ratio information, the latest research shows that Expected Progeny Differences for young bulls may be as much as nine times more accurate for selections than ratios. Present weights and any additional information requested will be available sale day.

MATERNAL STRENGTH
It has been determined that maternal traits are the most highly valued economic traits in the cattle industry. Milk EPD is the calves' weaning advantage in pounds expected from a bull's daughters through milk production. Milk plus growth EPDs indicate the advantage in pounds that the same daughters will transmit through both their milk and growth qualities. We have been pioneers in stressing the importance of maternal strength. You are assured of superior milking replacements when using bulls with high Maternal EPDs.

CARCASS ABILITY
Possibly no herd has done more long-term documented carcass work. We had the kids 4-H steers tested and are proud to report that of the three steers we have tested by a son of Golden Achiever they have averaged the following carcass excellence:
3 Steers: Backfat: 0.3; Yield Grade: 1.9; Quality Grade: Choice; Ribeye Area: 18 sq.in. We don't believe any breed or any program can produce more superior, consistent carcasses than these!

BIRTH WEIGHT EPD
We are giving each lot an amount of stars above the birth weight EPD box to designate whether bulls can be comfortably used on different kinds of cows. This explanation is as follows:

★ Indicates a birth weight tendency for mature cows
★★ Indicates birth weight for all cows and larger heifers
★★★ Indicates that birth weight should be acceptable for all heifers and cows

UDDER PIGMENT POSSIBILITY (UPP)
Only at Desert Mart! Again this year, we are indicating UPP with the three rankings of H (high), M (moderate) and L (low). Example: UPP-M would indicate that female progeny from this example lot would have a moderate possibility of possessing udder pigmentation.

SPECIAL NOTE:
Footnotes. Again this year, we are giving a brief description of each lot. This is to provide more insight to those folks who may not be able to attend and bid in person.

- A trait leader in six different traits, this is one of the best maternal sires anywhere! Vision is function!
This sire is more than legend! He is a lot of what breeding profitable cattle is all about. Even though he was born some 39 years ago, the large number of descendants being widely used all across our industry today is continually elevating his popularity. We feel very fortunate to be the #1 FOUNTAINHEAD SOURCE of King Ten genetics. To further demonstrate this unique opportunity for raising real “more dollars” cattle, each lot will have the number of times that he or she traces back to King Ten listed under the lot number.

• Act. BW 87 lb. Horned
• Selling ¾ interest, full possession
• Linebred Christi! Should leave females that last forever! And… his 10 traits of excellence insure PROFITABILITY all along the way!

• Act. BW 74 lb. Horned
• Selling ½ interest, full possession
• This is the best intensely bred King Ten we’ve ever seen! If you want calving ease and built in maternal/carcass ability with a great future – here is your bull!

• Act. BW 78 lb. Horned
• Selling ½ interest, full possession
• Used here, we believe this is one of the most maternally exceptional sons of the great 88X. Balanced numbers across the board and his dam’s udder may be described as perfect!

• Act. BW 80 lb. Horned
• Another tight bred King Ten. This bull is a square built herd builder with real breed character.

Lot 62 — L3 Winn Diamond 400

Lot 63 — L3 Genetic Winn 406 ET

Lot 64 — L3 Desert Comfort 404

Act. BW 71 lb. Horned
• A bull with older but proven genetics. You will note the data is somewhat lower, however this bull will hold his own with quality and thickness!

Lot 62 — L3 Winn Diamond 400

Lot 63 — L3 Genetic Winn 406 ET

Lot 64 — L3 Desert Comfort 404

Act. BW 65 lb. Horned
• Selling ½ interest, ½ semen sales, full possession
• Wow! Winnie’s natural 2013 bull calf is really something!
Impeccable data with balanced excellence, he would be considered awesome just from eye appeal alone! Don’t miss him!

Lot 63 — L3 Genetic Winn 406 ET

Lot 64 — L3 Desert Comfort 404

Act. BW 74 lb. Horned
• Selling ½ interest, ½ semen sales, full possession
• We have used GK Genetic Explosion well over 30 years.
Even though he is a breeding legend and a maternal sire without equal, we strongly believe this is his BEST son! Winnie certainly could be ranked with Christi herself after producing this great calf!

Lot 64 — L3 Desert Comfort 404

Act. BW 72 lb. Horned
• Selling ¾ interest, full possession
• The dam here has been a great producer and the sire certainly connected with Desert Comfort. This stout prospect ranks in the top 10% or better in an amazing seven traits: WW, YW, M&G, SC, REA, MARB and CHB$!
Lot 65 — L3 Desert Frequency 4100

- Act. BW 75 lb. Horned
- Look at the high weaning and yearling! Look at the carcass (REA top 1%)!

**JL DESERT FREQUENCY 412**

43446076 — Calved: Sept. 5, 2013 — Tattoo: RE 412

- Act. BW 77 lb. Horned
- REA in the top 10% makes sense when you see his thickness and top!

**L3 DESERT GEAR 405**

43446070 — Calved: Aug. 8, 2013 — Tattoo: RE 405

- Act. BW 79 lb. Horned
- This guy lost his mother at four months old. He’s coming!
Fulfilling a dream of 20 years!

Toby brings down a Big Horn Sheep with a perfect set of horns.
It's green scored 175 5/8. Horns were 37” long and 15” bases.
We are again very pleased to have our good friends in Montana, (Snowshoe Cattle Co., Bernie and Stacie Buzanowski, 406-855-8288), consign to our annual sale. These bulls carry the same terms, conditions and guarantees as the rest of the offering.

### L3 Miss Rango 371

- **Act. BW** 77 lb. Horned
- Great future in this prospect; goes back to THM Durango 4037 and comes from an 11-year-old mother.

### L3 Lady Iron 389

- **Bred AI** June 7, 2014, to Churchill Red Bull, 200Z, then pasture exposed June 28 to Aug. 15, 2014 to L3 Mr. Rango 363.
- **Act. BW** 85 lb. Horned
- This young lady is out of one of the best uddered cows you will ever see! The possible sire matings here will lift her EPDs. Maternal brother sells as Lot 91.

### L3 Desert Oasis 344

- **Bred AI** March 29, 2013 — Tattoo: RE 344
- **Act. BW** 79 lb. Horned
- Plenty of EPD and pigment power in this young lady. Nine traits in the top 10% or better!
- Bred AI June 30, 2014, to KT Built Tuff 1010, then pasture exposed July 12 to Aug. 28, 2014, to L3 Miss Rango 371.

### L3 Lady Stocking 374

- **Bred AI** April 5, 2013 — Tattoo: RE 374
- **Act. BW** 73 lb. Horned
- Ten-year-old front pasture dam. Tight bred for outcome power!

### L3 Lady Gear 384

- **Bred AI** May 8, 2013 — Tattoo: RE 384
- **Act. BW** 68 lb. Horned
- Unique breeding tool! Double Christi, double Rambo...double explosive!

### L3 Lady Stockings 391

- **Bred AI** May 20, 2013 — Tattoo: RE 391
- **Act. BW** 71 lb. Horned
- Same pedigree, same power as Lot 99!
Note: Due to the distance and labor involved with several pastures and leases, the heifer calves were not weaned in time to get their pictures for the catalog. However, we will have video clips available and pictures of them on our website at www.largentandsons.com by the time you receive this catalog. Even though our bulls have consistently ranked at the top nationally for production sales, the annual heifer calf sale has swiftly become one of the best opportunities to gain real lead time for reasonably priced, excellent quality show and cow prospects!

**L3 LADY XPERT 492 ET**

- Calved: April 9, 2014
- Sale: RE 492
- Sires: KSF BENNETT 3000 M 329, HAH MISS HUDSON 2516
- Heifer #3 LADY PANDA 646 (sire)
- Heifer #5 LADY RAMBO 767 (sire)
- Act. BW 75 lb.

**Desert Mart Weaned Sale Heifers**

1. **Act. BW 60 lb. Horned**
   - You really can put everything together! King Ten, 88X 3027, Rambo, 15 traits, low birth weight, pigment and Desert!Mart!
   - Retaining ¼ flush interest.

2. **Act. BW 76 lb. Horned**
   - Interesting genetics to create with here. Paternal sister to Desert Comfort out of a Rosy Lane bred female! Ten traits!
**TP LADY FREQUENCY 431**
- **Act. BW** 76 lb. Polled
- **Act. BW** 69 lb. Polled
- **Act. BW** 70 lb. Polled
- **Act. BW** 83 lb. Horned

Lots of milk here! Also, medium opportunity for udder pigment with a little different pedigree.

May prospect that might show! Her mother has produced many top bulls and females for us.

Another eight trait performance girl with breed leading maternal ability. Full speed ahead!

**L3 FOXY LADY 425**
- **Act. BW** 76 lb. Horned
- **Act. BW** 67 lb. Horned

Solid genetic foundation. This paternal sister of Desert Comfort offers concentrated bloodlines and quality.

**JH 137 LOVELY VISION 405**
- **Act. BW** 70 lb. Polled
- **Act. BW** 68 lb. Polled

For growth with fancy udders, tap into this heifer. She is big and feminine!

**JH 137 LOVELY VISION 408**
- **Act. BW** 76 lb. Polled
- **Act. BW** 76 lb. Horned

Another eight trait performance girl with breed leading maternal ability. Full speed ahead!

**L3 137 LOVELY VISION 450**
- **Act. BW** 76 lb. Polled
- **Act. BW** 76 lb. Horned

May prospect that might show! Her mother has produced many top bulls and females for us.

**L3 131 LADY DIAMOND 457**
- **Act. BW** 66 lb. Horned

Lots of milk here! Also, medium opportunity for udder pigment with a little different pedigree.
Yes, it’s true. The satisfaction of knowing that your cattle will pay their way is perhaps the most important aspect of ranching today. We at High Desert have been set on a course now for over 112 years of being a quality provider of superior Hereford genetics to our great beef industry. These are some of the comments that we are hearing from our satisfied customers.

• From a repeat customer who runs over 800 straight Hereford cows: “I don’t think they’re making better bulls than the ones I got from you!”

• From a first-time customer: “I’ve been buying bulls from one of the most reputable outfits around, but your bull is impressing me more than any of those others.”

• From a rancher who retained his heifers through the feedlot: “Those three loads of heifers by your bulls dressed at 64.9% — the best in the entire feedlot!”

• From a rancher hurt by several years of drought: “I had to sell down a bunch of cows and some of the bulls. In fact, the only bulls I kept are the ones we got from you!”

Have You Tried the New Math?
Red and White Plus Black = Gr$$n

If they perform like this straight, think how well the cross will work!

Most cattle producers of today want to stay in the black. The problem is that, many times, putting black cattle on black cattle doesn’t always produce the most green dollars. The good news is that there is a better formula! Recent BIF studies indicate that heterosis alone can return $120 more per cow per year. If a cow produces eight calves in her lifetime, that’s a whoppin’ $960 more per cow. Multiply that amount by the number of cows you’re running and you will easily see how the profits add up.

Now for the really good news: The latest Clay Center research describes Herefords as the one breed that provides the most hybrid kick. If you have decided that the NEW MATH is the best way to graduate your program to the next level, you may want to plan to attend the Desert Mart MORE IS MORE Sale, November 20, 2014. This is opportunity day here at the ranch in Kaycee, Wyo., as 90 bulls and 30 females will be offered. They have all been “schooled” genetically to push the limits forward in fertility, soundness and real maternal/carcass performance, no matter what color of kind of cows you have.

**NOTES**

---

Gerber 8020 Rosy Lane 308N — Dam of STAR L3 Gerber Vision 053

Gerber 774 Rosy Lane 623S — Full sister to STAR L3 Gerber Vision 053
The above 114 High Desert steers have set a great record of excellence. These home raised, straight Herefords weighed an incredible 1,387 lb. at only 15 months old and converted 5.58 lb. dry matter to gain 3.6 lb. per day. They brought a $28 premium to the cash market, dressed at 63.6, went over 70% Choice and had no deads, no standards, no dark-cutters and no overweight carcasses. In the words of a lifetime feeder, “When you’ve seen these steers, you’ve seen the best!”

Pictured is the 2014 WY State Fair Champion Hereford steer. In 2013, this same championship was captured by a home-raised Desert Mart steer and this year’s champion was sired by a Desert Mart herd sire! Not only did customers and friend Brayden West’s family win the show, their steer also posted an outstanding carcass
